The Center for Bone and Joint Surgery Partners with Wellington Regional Medical Center for Orthopedic Awareness

WELLINGTON, FL, September 21, 2009: Wellington Regional Medical Center will be hosting a series of orthopedic awareness lectures to Palm Beach County this coming season. The lectures will be presented by The Center for Bone and Joint Surgery's team of physicians.

The Center for Bone and Joint Surgery, CEO, Dr. Harvey Montijo and his team of 7 orthopedic surgeons have come together with Wellington Regional to offer community awareness regarding topics such as osteoporosis, arthritis, hand & foot treatments, spine and lumbar stenosis, and many more.

Dr. Montijo stated that so often patients with common orthopedic problems see physician's not knowing the proper treatment or even the prevention. However, by educating the community they will be able to pick out signs that can save themselves in the future.

The Center for Bone and Joint Surgery has been treating Palm Beach County and beyond since 1992. It is an orthopedic practice with 21 physicians that offer various specialties in orthopedics and pain management as well as onsite physical & occupational therapy, MRI, XRay Services, and muscle stimulation. All of the surgeons at The Center for Bone and Joint Surgery are Board Certified or Board Eligible with Fellowship training.

Dr. Montijo and his partners; Dr. José Ortega, Dr. Jorge Acevedo, Dr. Robert Lins, Dr. Robert Rochman, Dr. Nicholas Sama, Dr. George Bethlo, Dr. Laura White and Dr. Dana Desser will be meeting at Wellington Regional's Lecture hall twice a month educating the community about common orthopedic topics followed by a question and answer session. The first topic is Arthritis Management with Dr. Harvey Montijo, Thursday, October 15th at noon located in the lecture hall at Wellington Regional Medical Center.

The Center for Bone and Joint Surgery also offers interactive online patient education guide complete with videos. Please visit Orthopedic 411 at www.boneandjoint.org for more information.

If you wish to request more information regarding the topics or would like to sign up, please feel free to email, CBJResponse@boneandjoint.org or call Brittany Hill, (561) 798-6600.
